## PYRAMID EAST COMPANY LTD

Was known as Al-Oufi Establishment, formed in the year 1975 and registered as PYRAMID EAST COMPANY under SAGIA. During the initial periods, the establishment registered with Saudi Aramco and undertook different kinds of projects which include construction and maintenance work such as civil and architectural works, asphaltting, fence installation, sand blasting and coating, electrical work, mechanical works such as piping and structural work, pre-commissioning activities, etc.

Along with the Aramco contracts, the establishment started to work with the many petrochemical plants in Jubail and Yanbu (SABIC affiliates), Jubail municipality, Rahima and Na'ariyah. In addition to that, the establishment was working under the Royal Commission at Jubail.

Our presence on the ground puts us in a strategic position to respond immediately and effectively to the Client's business needs. Our competent team is confident in its ability to meet the standards and to cover the industrial requirements across a wide range of areas. Our service areas are comprehensive for the current trend of industry's demand.

We have started RBI (Risk Based Inspection) Services with qualified personnel and Team to provide specialized services as per industry standards.

Now we look forward to more opportunities to extend our business relations further with maximum clients. We assure that we shall put our maximum efforts to satisfy our client with the duties entrusted upon us in any kind of project.

We assure that we will consistently and professionally provide business supports to reach the Client's satisfaction. Making and keeping commitments to our client is now a part of our culture.

We hope this document gives the information to evaluate our capabilities and solicit further enquiries.

We provide complete design with Professional Engineer (PE) certification, supply and installation and commission of Fire pump system

## **CIVIL ENGINEERING DIVISION:**

The Civil Engineering Division of Pyramid East Co Ltd Contracting has involved in a wide range of Civil Engineering projects over the years.

The Division specializes in planning, construction and erection of large volume, complex and high tolerance industrial concrete structures, earthworks, road works, underground sewer networks, scaffolding services, pre-cast concrete elements, buildings and temporary site office facilities.

The Division maintains the highest standards of Quality & Safety, adhering to the needs of the clients from commencement till the handing over of the project

### **Temporary Camp Facility**

We are a proud independently owned company which design, manufacture, supply and install Temporary site offices in and across Saudi Arabia. Site offices from Mister Shade ME are designed to meet the highest quality standards and can be configured to fulfil your particular needs. We pride ourselves in both the speed of delivery and quality of the product we deliver to our customers.

A site office is mandatory on a construction site as it provides accommodation to site managers, space to store site documentation and place to conduct small meetings. It can certainly improve the growth strategy of the company. Since the construction won't take forever to finish, it is advisable to install a portable office cabin. They provide instant space ready to move in for a certain period of time. If your business is looking for a quick and easy space solution, then leasing or buying a temporary site office space is what you actually need.

Once you walk inside the temporary office cabins, you will be surprised to see that space looks exactly like a typical building. It is because the cabins are constructed with the same standard building materials. Our cabins are specifically designed to deliver comfortable, flexible and low maintenance office spaces

# Quality policy & objectives

## Quality policy

Our vision is to be recognized by our customers as a professional company that will provide services in the field of Industrial Contracting, Scaffolding, Protective Coating Systems, with value for money, quality, cost and time.

Our vision will be achieved through the following objectives:

1. An Effective Quality Management System will be developed, communicated, implemented by all employees and monitored for continuous improvements.
2. All the employees will be trained to understand, implement and maintain the Quality policy/ system / objectives Annexure
3. Customer needs and feedback will be integrated in the business processes to ensure delivery on time with minimum cost and wastage of resources.

**C.Appadurai**

**Chairman**

**Pyramid East Co Ltd**

# **PYRAMID EAST CO LTD QUALITY MANAGEMENT**

## **1. General**

- 1.1 Purpose
- 1.2 Scope
- 1.3 Project Quality Statement
- 1.4 Terms And Definitions
- 1.5 QA and QC Responsibilities

## **1. GENERAL**

### **Purpose**

Project Quality Plan defines the procedures, to be adopted for Quality Assurance and Control for all projects.

The Scope of Work Inspection, Quality control, contract and a series company Work Procedures implemented by the company for the execution of job of Various disciplines shall be the basis for quality control.

### **Scope**

Pyramid East Co Ltd Management recognizes the need for quality in every aspect of its operation and actively advocates and encourages all personnel to demonstrate their commitment to this.

As a part of implementation of the quality system, the company has developed and is practicing a series of establishment work procedures and instruction.

It is mandatory for all the personnel involved in the project to comply with the project quality plan and supporting procedures and instructions.

The Project Manager has the overall responsibility to ensure the implementation of the Quality plan.

All efforts will be made by Pyramid East Co Ltd to ensure that the project is completed in time within the budget to the required quality and as per the scope of the work.

The Quality Systems shall be subjected to periodic auditing by the QA/QC Manager.

## **1.4 Terms and Definitions**

The following definitions shall apply to the Quality Plan

- Quality: The totality of features and characteristics of service that bear on its ability to satisfy stated or implied needs.
- Quality Assurance: All those planned and systematic activities necessary to provide adequate confidence that a product or service will satisfy given requirement of quality.
- Quality Control: The operational techniques and activities that are used to fulfill requirements of quality.
  
- Quality Plan: A document setting out the specific quality practices, resources and sequences of activities relevant to particular product, service, contract or project.
- Quality Audit: A systematic and independent examination to determine whether implemented effectively and is suitable to achieve objects.
- Inspection & Test Plan: A document, which defines or identifies the inspection, test method(s), procedures and acceptance criteria to be utilized during fabrication/ construction.

## **1.5 Quality Assurance and Quality Control Responsibilities**

The Quality Assurance requirements for the project are defined in The project quality plan.

The QAQC Manager is responsible for

- Preparation of Quality Plan
- Revision of quality plan to reflect the changing operational Requirements of the Client.
- Auditing compliance with the Quality Plan and the issue of Corrective action notice for NCR.

1.5.3 The Project Manager has the overall responsibility of the implementation of the project quality plan.

# Company's HSE Policy & HSE Plan

**“Pyramid East Co Ltd believes that ‘Safety is everyone’s responsibility’ and the management pledges to ensure the implementation of relevant HSE standards in all aspect of works”**

**This policy:**

- shows the commitment of Pyramid East Co Ltd’s management and workers to health and safety
- aims to remove or reduce the risks to the health, safety and welfare of all workers, contractors and visitors, and anyone else who may be affected by our business operations
- Aims to ensure all work activities are done safely.

**Responsibilities**

Management (the supervisor and / or manager) is responsible for providing and maintaining:

- a safe working environment
- safe systems of work
- plant and substances in safe condition
- facilities for the welfare of all workers
- any information, instruction, training and supervision needed to make sure that all workers are safe from injury and risks to their health
- a commitment to continually improve our performance through effective safety management.

**Workers are responsible for:**

- ensuring their own personal health and safety, and that of others in the workplace
- complying with any reasonable directions (such as safe work procedures, wearing personal protective equipment) given by management for health and safety
- comply with safe work practices, with the intent of avoiding injury to themselves and others and damage to plant and equipment
- take reasonable care of the health and safety of themselves and others
- wear personal protective equipment and clothing where necessary
- comply with any direction given by management for health and safety
- not misuse or interfere with anything provided for health and safety
- report all accidents and incidents on the job immediately, no matter how trivial
- report all known or observed hazards to their supervisor or manager.

**Application of this policy:**

We seek the co-operation of all workers, customers and other persons. We encourage suggestions for realizing our health and safety objectives to create a safe working environment with a zero accident rate.

This policy applies to all business operations and functions, including those situations where workers are required to work off-site.
